

### Senior Design & Developer – Technology & Innovation, Tata STRIVE

Tata STRIVE, is group wide skill development initiative, aims to develop Employability, Entrepreneurship and community Enterprise capabilities in youth across country. This initiative would involve mobilizing youth (18 – 35 years) from under-served communities, training them on demand driven vocational skills along with integrated life-skills to empower them for a brighter future. Tata STRIVE is engaged with various State Governments, NGOs + Corporate in implementing projects of scale.

Designation	Senior Design & Developer – Technology & Innovation
Openings	1
Objective	Delivery of Project Initiatives as per the agreed commitment given to the stakeholders within Time, Cost and Quality parameters.
Major Deliverables	<ul style="list-style-type: none"> <li>• <b>Product Evaluation, Business Case</b> : Research relevant product(s) as per business need, develop Proof of Concept/prototypes, prepare and review business case</li> <li>• <b>Design</b> : End to End design capability across multiple components/solutions for a Platform across multiple technologies as relevant. Across Functional (Concept to Low Level Design), User Interfaces and experiences, Integration, Data Model, Report, Test Cases, Performance, Deployment, Rollout plan</li> <li>• <b>Develop &amp; Test</b> : Development, Configuration, Integration Testing across multiple solutions for a platform across multiple technologies</li> <li>• <b>Learning</b> : Keep up to date on latest industry trends in digital technologies</li> <li>• <b>Change Management &amp; Adoption</b> : Plan, monitor change management &amp; adoption as per commitment</li> <li>• <b>Continuous Improvement</b> : Proactively suggest new features based on implicit business need</li> <li>• <b>Product roadmap</b> : Contribute ideas to product roadmap</li> </ul>
Technical Skills	<ul style="list-style-type: none"> <li>• Strong expertise in design of Spring/Web application. Usage of design practices, tools. Experience in design of information architecture, database design and architecture patterns.</li> <li>• Expertise in creating Requirement and Design Documentation</li> <li>• Exposure building web and native mobile apps</li> <li>• Knowledge of MySQL or similar database management system</li> <li>• Experience on web service integration (SOAP, REST, JSON, XML)</li> <li>• Understanding of HTML5, Javascript, jQuery, Ajax</li> </ul>
Work conditions/Job Environment	<ul style="list-style-type: none"> <li>• Ability to work on multiple projects within stipulated time frame.</li> <li>• Ability to leverage the available resources within Tata STRIVE ecosystem.</li> </ul>
Essential Attributes	<ol style="list-style-type: none"> <li>1) Innovative</li> <li>2) Proactive</li> <li>3) Analytical</li> <li>4) Solution Mindset</li> <li>5) Project Management</li> <li>6) Business focus</li> </ol>

Desired Attributes	1) Process Oriented
Reporting To	Program Manager – Technology & Innovation
Qualification	<ol style="list-style-type: none"><li>1) Prefer Engineering Graduate with minimum 6 years overall experience</li><li>2) Web technologies Development experience minimum 3 years</li><li>3) Demonstrate in resume, contribution to medium to large project, for platform with minimum 1000 users spread geographically.</li></ol>
Location	Mumbai
